

Our International British curriculum sets a global standard for education and is recognised by universities and employers worldwide.

Your passport to an international tertiary education, accepted by universities and colleges in more than 160 countries.

The CambriLearn curriculum is based on the world's most widely-recognised British system of learning and assessment, boasting more than 160 years of expertise. It is a highly-regarded and accredited primary and secondary school programme that allows a seamless integration with national curricula worldwide. This is largely owing to its design, which encompasses global concepts, making it fully international and independent of traditional educational philosophy

By allowing students to start at any time of the year, they set the pace for their learning, unlimited by the bounds of any academic calendar. This is augmented by the freedom to tailor their subject choices according to their country's specific requirements to achieve a school-leaving certificate.

By taking a competency-based approach to education, our curriculum allows students to study at the level at which they will excel. Although there are recommended ages at which different education levels should be taken, this approach means the levels are flexible enough to accommodate each student's unique competence.

STANDARD

**Interactive Learning Content
Live Online Lessons
Chat Forums
Student Tracker
Marked Assignment
Marked Final Exams**

PREMIUM

**Everything offered in the Standard package
PLUS:
Direct chat with subject specialists
Online Question & Answer Sessions
Marked mock exams**

Please note that you do not need to take ALL subjects on Standard or ALL subjects on Premium, you can mix and match. For example, if there is a particular subject you find that you will need extra support with, then you can take (for example) Maths on Premium and the other subjects on Standard. Learners can also take one subject at a particular grade, and another subject at another grade simultaneously. We can create a bespoke package, based on individual needs.

INTERNATIONAL ACCREDITATION

CambriLearn is accredited with Cognia, the world's largest non-profit education community, meaning that a CambriLearn education is recognised and accepted at universities around the world.

A PROVEN HISTORY

The team at CambriLearn have delivered education online for more than a decade, so we know what works.

ONLINE LEARNING CONTENT

Access detailed course outlines, multi-sensory videos and interactive lessons available 24/7 on mobile, laptop and PC.

DIRECT CHAT WITH TEACHERS

Have a question? Ask your teacher at any time via the built-in chat function and receive an answer within one day.

LIVE AND RECORDED LESSONS

Interact and collaborate with your classroom via weekly online sessions or dive into recorded lessons at any time to learn at your pace.

MARKED ASSIGNMENTS & EXAMS

Each of your assignments and mock exams will receive personalised feedback because every CambriLearn teacher is invested in your success.

STUDENT TRACKER

See the evidence of your success, including all assignments and coursework with your own progress tracker. Parents and Tutors can get involved too, providing support and encouragement along your learning journey.
